## RESISTANCE WITHOUT COMPROMISE

STOUT is the most robust and powerful MP-HT sweeper. Equipped with front collecting, it is able to collect heavy dirt even maintaining its effectiveness in the presence of large quantities of dust.

The MP-HT **metal frame** makes this sweeper extremely solid and able to absorb important stresses. At the same time it is easy to handle and easy to operate, fundamental features of all MP-HT sweepers.

**FOR HEAVY WORK**

# STOUT MAX 170

**HIGH DUMP**  
The robust hydraulic system allows to raise the whole collection group and unload directly into a container.

**ERGONOMICS**  
Easy to use even for non-specialized operators. The driving position and the maneuverability make the job easy and comfortable. It does not require a drive license.

**CABIN**  
Possibility to add a protective cabin.

**ELECTRIC FILTER SHAKER**  
Cleans dust filters and keeps suction efficiency high.

**SUCTION HOSE**  
Easy-to-connect, allows the cleaning of hard-to-reach places.

**DUST CONTROL KIT WITH WATER**  
The water spray system on the brushes avoids raising dust while working. A disinfectant can be added into the water tank to increase the effectiveness of the cleaning.

**ANTI-SHOCK BRUSHES**  
The brushes are mounted on elastic supports and retract on contact with an obstacle even near walls and shelves.

**EASY MAINTENANCE**  
Easy access to all the main components. Easy to manage even for non-specialized operators. Changing filters, brushes or batteries will not be a problem.

**TYPES OF FILTERS**  
Two types of filters are available: pockets, for standard use, and panel, for thin and moist powders.

**EASY TO TRANSPORT**  
The dimensions of STOUT are designed to allow transport on vehicles that do not require particular licenses.

**WORK IN SLOPE**  
It can also work on sloping surfaces and steep ramps (up to 19%).

**STEERING WHEEL DRIVE**  
Allows tight bending radius and ensures great maneuverability.
